

Microsite Program

A free, personalized website to help you find a living kidney or liver donor.

NATIONAL KIDNEY REGISTRY®
FACILITATING LIVING DONOR TRANSPLANTS

NATIONAL LIVER REGISTRY®
FACILITATING LIVING DONOR TRANSPLANTS

Free, Expert Help from Donor Search Coaches

When you set up a microsite, you will be assigned a donor search coach to help you every step of the way.

Coaches are donor search experts who have found themselves or a loved one a kidney through a donor search. They can:

- Answer your questions about the donor search and transplant processes
- Assist you with your microsite, including how to tell your story
- Help you navigate the many programs available to kidney patients and donors
- Work with you to come up with ideas for finding a living donor

Spread the Word!

You never know who might be touched by your story!

Share your microsite link on social media:

Hello! My name is
Maria Diaz
and I am looking for a kidney donor

To learn more about my story, find out about kidney donation or be tested as a potential donor, please visit my website:

nkr.org/BPE847

Please share & help me find a kidney donor.

What is a Microsite?

A microsite is a free, personalized website where potential donors can learn about your living donor search and easily and confidentially register to be your donor. You can share your microsite through email or social media, as well as face-to-face using the 250 business cards you will receive once the site is active.

On your microsite, you can post pictures and tell the story of why you need a kidney or liver. You'll also have access to a donor search coach who has successfully run a donor search campaign for themselves or a family member, who can help you optimize your microsite and give you advice on how to reach more potential donors.

How it Works

Register for a microsite through your transplant center or other patient-specific initiative.

You will create a "starter" microsite with a unique web address, general information on living donation, and no pictures. This will serve as a placeholder until you customize your microsite to include your story and photos.

Roughly 2 weeks after your starter site is active, you will receive 250 business cards with your name and microsite URL to share with anyone who is interested in learning more, as well as 10 free posters to display in your community.

Once the starter site is set up, you will receive an email with a link to create your custom microsite. Write your story, upload at least 1 picture, and submit your custom microsite for review.

Your custom microsite will be reviewed and either approved or returned with requested changes.

Once approved, your custom microsite will replace the starter site using the same web address. You will receive a confirmation email when the custom site is live.

Once your custom microsite is live, you will be able to request 25 custom posters, including your photo, general information on living donation, your unique URL, and a QR code for your microsite.

Microsite Writing Tips

1. Tell your story, including what your life is like and what efforts you have made to find a donor.
2. If you choose to mention your friends and family in your custom site, try to also explain why they can't donate.
3. Share your hopes and dreams, including what you will do after you receive a transplant.
4. Do not offer any payment or compensation to potential donors.
5. Check spelling and grammar before submitting the site.

Interested in creating a microsite to help you find a living kidney or liver donor?

Ask your transplant coordinator or contact the NKR at **kidneyregistry.com/contact** for an invite!
